To whom it may concern:

With over a decade of experience in software development and Systems engineering, I am excited about the opportunity to contribute to your innovative team.

In my previous roles, I have successfully managed a variety of projects, utilizing my skills in Microsoft .NET, database management, Linux administration, and cloud computing. My ability to thrive under pressure and deliver results within tight deadlines has been honed through diverse international experiences and academic achievements.

Enclosed, please find my resume, which provides further detail about my qualifications and experiences.

I am eager to discuss how my background and skills align with the needs of your team. Thank you for considering my application. I look forward to the possibility of contributing to the success of your company.

Sincerely,

Ebrahim Delavari

Objectives

Experienced and driven professional with expertise in software development and systems engineering, eager to contribute to dynamic organizations. Committed to excellence, creativity, and innovation in every aspect of my work.

Area of Expertise

- **Software Development:** Design, Programming, Documentation, Testing.
- **Web Development (front-end):** HTML, CSS, JavaScript and AJAX.
- **Web Development (back-end):** C Sharp, PHP.
- **Content Management Systems (CMS):** WordPress, Joomla, DotNetNuke.
- **Server Administration:** Installation, Configuration, Maintenance of Software and Hardware.
- **Systems Engineering:** Virtualization, Linux Administration, Hosting Management.
- **Microsoft Technologies:** .NET Framework, SQL Server, SharePoint.

Skills

Research and Writing Skills

- **Strong Research and Writing Skills:** Demonstrated through the successful completion of the university final year project, which was nominated for the MSC-APICTA Award 2012.
- **Experience in Research Projects:** Utilizing effective methods such as survey questions, interviews, and critical data analysis.
- **Advanced Research Skills:** Enhanced by investigating various issues affecting citizens in Malaysia, such as health-related issues.
- **Creative Research Skills:** Applied to diverse aspects of Computer Science.
- **Team-based Research:** Successfully collaborated within a team to design data center infrastructure, including racks, servers, and related components.
- **Research with a focus on Problem-solving:** Proficient in identifying critical problems and developing innovative solutions through research.

Information Technology Skills

- Expert in Web Technologies such as HTML, CSS, JavaScript and AJAX.
- Expert in Microsoft Development Technologies, including such as Visual Studio, SQL Server, SharePoint, ASP.NET and .NET Framework.
- Expert in Databases such as SQL Server, MySQL and MariaDB.
- Expert in Project Management.
- Expert in Virtualization, Linux Administrations and Hosting Management.
- Expert in Web Panels such as Webmin, Virtualmin, cPanel and Plesk.
- Expert in Linux Open Source Applications such as Moodle, Nextcloud and Big Blue Button.
- Proficient in system assembly, including computers and servers.
- Strong in Graphics Software such as Photoshop, Illustrator, SmartDraw and etc.
- Good in Web Development Frameworks, such as Laravel (used themes and filament)
- Good in SharePoint Technologies such as InfoPath, SharePoint Designer and etc.
- Good in understanding UML and understanding of Database Analyzing.
- Good in Cloud Computing.
- Knowledgeable in Web Services such as SOAP and REST.
- Knowledgeable in Adobe Flash, SWiSH Max and Autodesk 3ds Max.
- Knowledgeable in Oracle Technologies.
- Knowledgeable in Front-end framework such as React, Angular and Vue.

Communication and Organizational Skills

- Persistence, team player.
- Have initiative, curiosity, creative and analytical.
- Enthusiastic, engaging and persuasive.
- Articulate with good written and spoken English.
- Articulate with good spoken Persian, Arabic and Hindi.
- Goal oriented and hardworking individual determined to succeed.
- Fast learner, independent and very self-motivated.
- Able to explain technical data to non-technical colleagues.
- Innovation, open to new ideas and approaches, and willing to think outside the box.

Education

2012 – **Asian Pacific University (APU) OF Technology and Innovation**, Malaysia,
Bachelor of Computing and IT

Awards

UCTI - Bachelor of Science in Information Technology with First Class Honours.

Staffordshire University - Bachelor of Science in Computing with First Class Honours.

Final Year Subjects

Project Management, Ubiquitous Computing, Mobile Web and Multimedia, Advanced Web Multimedia, Advanced Multimedia.

Projects

Final Year – Parkway Intelligent Mobile, Research on Intelligent Mobile Healthcare in Malaysia using Windows Operating System.

Other – Wrote program in XAML, JavaScript, HTML, VB.net and C#, used SQL Server and XML as Database.

Miscellaneous

2012 – **MCS Malaysia APICTA, best of student project** – Software/Hardware

Final Year Project was nominated for MSC- APICTA award 2012, under supervision of Mr. Dhason Padmakuram, Senior Lecturer and Project Manager in Asia Pacific University, Malaysia.

Working Experience

2012 – **Software Developer at Dynalligent Enterprise Solutions** [Internship]

- Created databases in Microsoft SQL Server.
- Developed web applications in Visual Studio.
- Worked on open source developments projects.
- Worked on workflows in SharePoint.
- Developed and packaged SharePoint solutions in Visual Studio.
- Created and designed SharePoint sites and lists in SharePoint designer.
- Managed and configured SharePoint sites.
- Managed and configured Central Administrator for SharePoint.

2012-2013 – **Software Developer at Dynalligent Enterprise Solutions** [Full-Time]

- Developed SharePoint-based safety management system in SharePoint Designer.
- Developed SharePoint-based Engineering Document Management System in Visual Studio 2010.
- Deployed SharePoint solutions on SharePoint server.
- Testing of SharePoint solutions for functionality in different browsers and at different resolutions.

2014-2018 – **Software Developer – Self-Employed** [Full-Time]

- Worked on Linux systems.
- Implemented web based Linux applications.
- Designed and Developed ASP.net sites.
- Designed and Developed WordPress and Joomla websites.
- Worked on Agile Methodology.
- Provided Web Based solutions for businesses.

2019-2022 – **Software Developer & Systems Engineer at HormozNet** [Full-Time]

- Designed and Developed Clean Code and CMS websites.
- Trained junior team member and collaborate with them on web projects.
- Implemented and customized open source applications such as Moodle, BigBlueButton and etc.

- Worked on Data Center Project Plan.
- Server Administrator, installed, upgrade and troubleshoot Server Hardware.
- System Administrator, worked on virtualization and containerization (e.g., VMware and vCenter).
- Worked on Linux Platforms and Technologies.
- Implemented and Standardize production level Hosting.
- Worked on Web Panels such as Webmin, Virtualmin, Cpanel and Plesk.

2022-2024 – **Software Engineer and Project Manager at MangroTech** [Part-Time]

- Coordinate with clients to gather project requirements and ensure client satisfaction.
- Conduct regular team meetings to discuss project status, address concerns, and ensure alignment with project goals.
- Collaborate with the team to ensure code quality and adherence to project standards.
- Provide optimal solutions based on client requirements, leveraging open-source solutions, CMS, and frameworks.
