PROFESSIONAL SUMMARY

Systems Engineer and Software Developer with 14+ years of hands-on experience across server infrastructure, Linux and Windows Server administration, virtualization, web hosting, web technologies, and application development and support. Experienced with VMware and Hyper-V virtualization, server hardware, hosting control panels, open-source solutions, databases, PHP/Laravel, WordPress, and C#/.NET/WPF application development.

Strong background in troubleshooting, technology integration, and production environments, with the ability to adapt quickly to evolving technologies and technical requirements.

CORE TECHNICAL SKILLS

Systems & Infrastructure

Linux & Windows Server | Server Hardware & Maintenance | Infrastructure Support

Virtualization & Hosting

VMware ESXi | VMware vCenter | Hyper-V | cPanel/WHM | Plesk | Webmin | DirectAdmin

Development

C# | .NET | WPF | XAML | ASP.NET | PHP | Laravel | Filament | REST API Integration | HTML | CSS | JavaScript

Databases

Microsoft SQL Server | MySQL | MariaDB | SQLite

Platforms & Tools

WordPress | SharePoint | Moodle | BigBlueButton | Odoo | Bitbucket | Jira

Scripting & Development Tools

Python | Bash | PowerShell | Git | Visual Studio

AI & Developer Tools

GitHub Copilot | ChatGPT | Claude | AI-Assisted Development

PROFESSIONAL EXPERIENCE

Senior Systems Engineer — ALTahadi

2024 – Present | Hybrid

- Manage and maintain Linux server environments, including AlmaLinux and Ubuntu installation, configuration, updates, security hardening, troubleshooting, monitoring, and ongoing system administration.
- Manage WHM/cPanel hosting, DNS, SSL, user administration, backups, maintenance, and service troubleshooting.
- Deploy, maintain, and upgrade platforms including Moodle, Bitbucket, and Jira.
- Work across existing server and application environments, performing upgrades, configuration changes, troubleshooting, and technical improvements.
- Contribute to C#/.NET desktop applications using WPF, XAML, SQLite, and REST API integration, including implementation, troubleshooting, and deployment.

Senior Systems Engineer — MangroTech

2022 – 2024 | Hybrid

- Deployed and maintained VMware ESXi environments, virtual machines, and related server configurations.
- Managed WHM/cPanel hosting, DNS, SSL, backups, maintenance, and troubleshooting.
- Worked on web projects using CMS platforms such as WordPress and Laravel-based technologies including Filament.

Software Developer & Systems Engineer — HormozNet

2019 – 2022 | Full-Time

- Installed, upgraded, and troubleshoot physical server hardware; deployed and maintained VMware/vCenter environments.
- Managed hosting environments using cPanel, Plesk, and Webmin, and implemented and customized open-source platforms including Moodle and BigBlueButton.

- Supported data-center infrastructure planning and design and collaborated with junior colleagues on web and infrastructure projects.

Software Developer — Self-Employed

2014 – 2018 | **Full-Time**

- Delivered web development projects for businesses and individual clients using PHP, WordPress, databases, and other web technologies.
- Worked with Linux-based systems and web hosting environments, including cPanel, domain and DNS configuration, website deployment, and hosting management.
- Assembled, installed, configured, upgraded, and maintained computer systems and server hardware, including component installation, operating system deployment, system configuration, and hardware troubleshooting.

Software Developer — Dynalligent Enterprise Solutions

2012 – 2013 | **Full-Time**

- Created and managed SharePoint sites, lists, and workflows using SharePoint Designer.
- Contributed to SharePoint-based safety management and engineering document management solutions using SharePoint and assisted with production deployment and testing.

Software Developer Intern — Dynalligent Enterprise Solutions

2012 | **Internship**

- Worked with C#, ASP.NET, and Microsoft SQL Server on SharePoint-based web applications and business solutions.
- Configured SharePoint sites and workflows, packaged and deployed solutions, and supported development tasks.

EDUCATION

Bachelor of Science (BSc) in Computing — First Class Honours

Asia Pacific University (APU), Malaysia

Degree awarded by Staffordshire University, United Kingdom | 2012

- Final-year project: **Parkway Intelligent Mobile** — research project focused on intelligent mobile healthcare in Malaysia using Windows-based technology.
- The final-year project was nominated for the **MSC-APICTA Award 2012** in the student software/hardware category.
